QUESTION 2

Your retail store policy states that you cannot have more than \$1,000.00 or less than \$200.00 in the cash drawer at any given time. You have a busy hour at your store resulting in a \$1,200.00 balance in the cash drawer.

You need to ensure that you are following the store policy.

What should you do?

- A. Perform a cash return transaction for \$1,000.00, then perform a bank drop for \$1,000.00.
- B. Perform a bank drop for \$1,000.00.
- C. Perform a tender removal for \$200.00, then perform a safe drop for \$1,000.00.
- D. Perform a float entry of \$200.00, then perform a safe drop for \$1,000.00.

Correct Answer: B

QUESTION 3

Which statement regarding linking a product to a product category is true?

- A. The product must be associated with one or more product attributes.
- B. The product cannot have variations.
- C. The product must be created by using product configurator.
- D. The product can have a template for variants.

Correct Answer: D

QUESTION 4

You need to extend a 10 percent discount to all employees at a partner company. What should you do?

- A. Create an affiliation with special pricing and assign it to each customer account that is related to the employees at the partner.
- B. Create a new product category hierarchy and generate new trade agreements.
- C. Create a new discount for the retail channel.
- D. Create a new target market for the customer accounts that are related to each employee.

Correct Answer: A

QUESTION 5

You are configuring a sale for a new store.

You must offer a 20 percent discount off any item in the store. The offer must not be combined with any other discounts.

You need to ensure that customers receive the discount on only one item.

Which option should you use?

- A. Balanced calculation
- B. Compounded
- C. Best price
- D. Exclusive

Correct Answer: D
