QUESTION 1

You need to provide users with access to SalesApp. The solution must meet the technical requirements. What should you include in the solution?

A. Microsoft AppSource

B. sideloading

C. Centralized Deployment

D. App Catalog in SharePoint Online

Correct Answer: A

QUESTION 2

Your on-premises network contains the web applications shown in the following table.

Name	Hosted on server
App1	Web1
App2	Web1
App3	Web2
App4	Web2

You purchase Microsoft 365, and then implement directory synchronization.

You plan to publish the web applications.

You need to ensure that all the applications are accessible by using the My Apps portal. The solution must minimize administrative effort. What should you do first?

A. Deploy one conditional access policy.

B. Deploy one Application Proxy connector.

C. Create four application registrations.

D. Create a site-to-site VPN from Microsoft Azure to the on-premises network.

Correct Answer: B

The Application Proxy connector is what connects the on-premises environment to the Azure Application Proxy.

Application Proxy is a feature of Azure AD that enables users to access on-premises web applications from a remote client. Application Proxy includes both the Application Proxy service which runs in the cloud, and the Application Proxy connector which runs on an on-premises server. Azure AD, the Application Proxy service, and the Application Proxy

connector work together to securely pass the user sign-on token from Azure AD to the web application.

QUESTION 3

Your company has multiple offices worldwide.

The company has a Microsoft 365 E5 subscription.

You need to enable a user named Admin1 to use Microsoft 365 network connectivity. The solution must use the principle of least privilege.

Which role should you assign to Admin1?

A. Helpdesk Administrator

B. Message Center Reader

C. Office Apps Administrator

D. Service Support Administrator

Correct Answer: D

Explanation:

Service Support Administrator

Users with this role can create and manage support requests with Microsoft for Azure and Microsoft 365 services, and view the service dashboard and message center in the Azure portal and Microsoft 365 admin center.

Actions include:

microsoft.office365.network/performance/allProperties/read

Read all network performance properties in the Microsoft 365 admin center

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You need to assign User2 the required roles to meet the security requirements.

Solution: From the Office 365 admin center, you assign User2 the Security Reader role. From the Exchange admin center, you assign User2 the Compliance Management role.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

User2 must be able to view reports and schedule the email delivery of security and compliance reports.

The Security Reader role can view reports.

The Compliance Management role can schedule the email delivery of security and compliance reports.

QUESTION 5

SIMULATION

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality

(e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn\\'t matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are

able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

You may now click next to proceed to the lab. Lab information

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@LODSe1211885.onmicrosoft.com

Microsoft 365 Password: oL9z0=?Nq@ox

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only:

Lab Instance: 11098651

You need to prevent users in your organization from receiving an email notification when they save a document that contains credit card numbers.

To answer the question, sign in to the Microsoft 365 portal.

Correct Answer: See explanation below.

You need to edit the Data Loss Prevention Policy to disable the email notifications.

1.

 Go to https://protection.office.com or navigate to the Security and Compliance admin center.

2.

 In the left navigation pane, expand Data Loss Protection and select Policy.

3.

 Select the Data Loss Prevention policy and click the Edit Policy button.

4.

 Click Policy Settings in the left navigation pane of the policy.

5.

 Select the policy rule and click the Edit Rule button.

6.

 Scroll down to the 'User notifications' section.

7.

 Toggle the slider labelled "Use Notifications to inform users…." to Off.

8.

 Click Save to save the changes to the policy rule.

9.

 Click Save to save the changes to the policy.
