### QUESTION 1

You have a Microsoft 365 E5 subscription that contains the devices shown in the following table.

Name	Enrolled	Operating system	Ownership
Device1	Yes	Windows 10 Enterprise	Corporate
Device2	No	Windows 10 Pro	Personal
Device3	Yes	Windows 11 Pro	Corporate
Device4	Yes	Windows 11 Pro for Workstations	Corporate

You need to implement Windows Information Protection (WIP). The solution must meet the following requirements:

Ensure that users on enrolled devices can override the WIP policy settings. Prevent users on unenrolled devices from overriding the WIP policy settings. What is the minimum number of app protection policies required?

- A. 1
- B. 2
- C. 3
- D. 4

Correct Answer: B

Explanation:

One policy that allows overrides, and one policy that blocks.

Note: What are the protection modes?

Block

WIP looks for inappropriate data sharing practices and stops the user from completing the action. Blocked actions can include sharing info across non-corporate-protected apps, and sharing corporate data between other people and devices

outside of your organization.

Allow Overrides

WIP looks for inappropriate data sharing, warning users when they do something deemed potentially unsafe. However, this mode lets the user override the policy and share the data, logging the action to your audit log.

Silent

WIP runs silently, logging inappropriate data sharing, without blocking anything that would have been prompted for employee interaction while in Allow Override mode. Unallowed actions, like apps inappropriately trying to access a network

resource or WIP-protected data, are still stopped.

## QUESTION 2

### HOTSPOT

You have a Microsoft 365 tenant that is signed up for Microsoft Store for Business and contains the users shown in the following table.

Statements	Yes	No
User1 has their cache cleared on close.	<input type="radio"/>	<input type="radio"/>
User2 has Cursor movement set to Visual.	<input type="radio"/>	<input type="radio"/>
User3 has Cursor movement set to Visual.	<input type="radio"/>	<input type="radio"/>

All users have Windows 10 Enterprise devices.

The Products and services settings in Microsoft Store for Business are shown in the following exhibit.

Statements	Yes	No
User1 has their cache cleared on close.	<input type="radio"/>	<input checked="" type="radio"/>
User2 has Cursor movement set to Visual.	<input type="radio"/>	<input checked="" type="radio"/>
User3 has Cursor movement set to Visual.	<input type="radio"/>	<input checked="" type="radio"/>

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

Name	Microsoft Store for Business role	Azure Active Directory (Azure AD) role
User1	Purchaser	Billing administrator
User2	Admin	Global administrator
User3	Basic Purchaser	None
User4	Basic Purchaser, Device Guard signer	Global reader

Correct Answer:

### Microsoft Remote Desktop

### QUESTION 3

#### HOTSPOT

As of March, how long will the computers in each office remain supported by Microsoft? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Setting	Value
Name	Rule1
Alert severity	Low
Device group scope	Group1, Group2
Recipient email address	User1@contoso.com

Correct Answer:

Statements	Yes	No
If a high-severity incident is triggered for Device1, an incident email notification will be sent.	<input type="radio"/>	<input type="radio"/>
If a low-severity incident is triggered for Computer1, an incident notification email will be sent.	<input type="radio"/>	<input type="radio"/>
If a low-severity incident is triggered for Device3, an incident notification email will be sent.	<input type="radio"/>	<input type="radio"/>

March Feature Updates: Serviced for 18 months from release date  
September Feature Updates: Serviced for 30 months from release date

#### QUESTION 4

You need to configure the compliance settings to meet the technical requirements. What should you do in the Microsoft Endpoint Manager admin center?

- A. From Compliance policies, modify the Notifications settings.
- B. From Locations, create a new location for noncompliant devices.
- C. From Retire Noncompliant Devices, select Clear All Devices Retire State.
- D. Modify the Compliance policy settings.

Correct Answer: D

#### QUESTION 5

Your company has a Microsoft 365 subscription that contains the domains shown in the following table.

Name	Can enroll devices to Microsoft Intune by using auto-discovery
Contoso.com	Yes
Contoso.onmicrosoft.com	Yes

The company plans to add a custom domain named fabrikam.com to the subscription and then to enable enrollment of devices to Intune by using auto discovery for Tabrikam.com.

You need to add a DNS record to the fabnkam.com /on\*

Which record type should you use for the new record?

- A. SRV
- B. PTR
- C. CNAME
- D. TXT

Correct Answer: C
