- D. a data loss prevention (DLP) policy from the Microsoft 365 compliance center

Correct Answer: B

QUESTION 3

HOTSPOT

You have a Microsoft 365 tenant that contains 100 Windows 10 devices. The devices are managed by using Microsoft Endpoint Manager.

You plan to create two attack surface reduction (ASR) policies named ASR1 and ASR2. ASR1 will be used to configure Microsoft Defender Application Guard. ASR2 will be used to configure Microsoft Defender SmartScreen.

Which ASR profile type should you use for each policy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

ASR1:

Device control
Exploit protection
Application control
App and browser isolation
Attack surface reduction rules

ASR2:

Device control
Exploit protection
Application control
App and browser isolation
Attack surface reduction rules

Correct Answer:

ASR1:

Device control
Exploit protection
Application control
App and browser isolation
Attack surface reduction rules

ASR2:

Device control
Exploit protection
Application control
App and browser isolation
Attack surface reduction rules

QUESTION 4

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Settings to configure in Azure AD:	<table border="1"> <tr><td>Device settings</td></tr> <tr><td>Mobility (MDM and MAM)</td></tr> <tr><td>Organizational relationships</td></tr> <tr><td>User settings</td></tr> </table>	Device settings	Mobility (MDM and MAM)	Organizational relationships	User settings
Device settings					
Mobility (MDM and MAM)					
Organizational relationships					
User settings					
Settings to configure in Intune:	<table border="1"> <tr><td>Device compliance</td></tr> <tr><td>Device configuration</td></tr> <tr><td>Device enrollment</td></tr> <tr><td>Mobile Device Management Authority</td></tr> </table>	Device compliance	Device configuration	Device enrollment	Mobile Device Management Authority
Device compliance					
Device configuration					
Device enrollment					
Mobile Device Management Authority					

Correct Answer:

Settings to configure in Azure AD:

▼
Device settings
Mobility (MDM and MAM)
Organizational relationships
User settings

Settings to configure in Intune:

▼
Device compliance
Device configuration
Device enrollment
Mobile Device Management Authority

QUESTION 5

DRAG DROP

You have a Microsoft 365 subscription that contains the devices shown in the following table.

Name	Operating system	Microsoft Intune
Device1	Windows 11 Enterprise	Enrolled
Device2	iOS	Enrolled
Device3	Android	Not enrolled

You install Microsoft Word on all the devices.

You plan to configure policies to meet the following requirements:

Word files created by using Windows devices must be encrypted automatically.

If an Android device becomes jailbroken, access to corporate data must be blocked from Word.

For iOS devices, users must be prevented from using native or third-party mail clients to connect to Microsoft 365.

Which type of policy should you configure for each device? To answer, drag the appropriate policy types to the correct devices. Each policy type may be used once, more than once, or not at all. You may need to drag the split bar between

panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Policy Types

- App configuration policy
- App protection policy
- Compliance policy
- Conditional Access policy

Answer Area

Device1:

Device2:

Device3:

Correct Answer:
