QUESTION 1

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams.

You have a team named Project1 that contains the users shown in the following table.

Name	Role
User1	Owner
User2	Member

You create a Microsoft 365 groups expiration policy that has the following configurations: Group lifetime (in days): 180
Email contact for groups with no owners: Admin1 Enable expiration for these Microsoft 365 groups: Project1

The group expiration for Project1 is May 31, 2022.

Which users will be notified to renew Project1, and when the users will receive their first renewal notification? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Hot Area:

Notified users:

Dropdown menu for Notified users:

- User1 only
- Admin1 only
- User1 and User2 only
- User1 and Admin1 only
- User1, User2, and Admin1

First renewal notification:

Dropdown menu for First renewal notification:

- May 1, 2022
- May 16, 2022
- March 31, 2022

Correct Answer:

Notified users:

User1 only
Admin1 only
User1 and User2 only
User1 and Admin1 only
User1, User2, and Admin1

First renewal notification:

May 1, 2022
May 16, 2022
March 31, 2022

QUESTION 2

Your company has a Microsoft 365 subscription that contains several teams.

The company's security policy states that an administrator must be notified when a new team is created by using the Build a team from scratch option.

You need to configure the environment to meet the security policy requirement.

What should you do?

- A. From the Security and Compliance admin center, create a supervision policy.
- B. From the Security and Compliance admin center, create an alert policy.
- C. From the Azure Active Directory admin center, create a protection notification.
- D. From the Microsoft Teams admin center, modify the global teams policy.

Correct Answer: B

<https://learn.microsoft.com/en-us/microsoft-365/compliance/alert-policies?view=o365-worldwide>

QUESTION 3

You have a Microsoft 365 subscription that contains two users named User1 and User2. The users are provisioned for Microsoft Teams calling.

User1 is on leave for two weeks.

You need to ensure that User2 is notified of all calls to User1 while User1 is away.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From Voice, add User2 to group call pickup.
- B. From Voice, add User1 to group call pickup.
- C. From Policies, modify the voice routing policy.
- D. From the Microsoft Teams admin center, modify the settings of User2.
- E. From the Microsoft Teams admin center, modify the settings of User1.

Correct Answer: AE

QUESTION 4

Your company has a Microsoft 365 subscription that uses Phone System and Calling Plans.

You plan to implement a toll phone number for the helpdesk.

You need to implement the following call features for the helpdesk phone number:

1.

Must include a greeting and hold music

2.

Must bypass menu options when a call is established to the helpdesk

What two resources should you create? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a call queue
- B. a call park
- C. an auto attendant
- D. a resource account

E. a calling policy

Correct Answer: AD

Auto attendant and call queue require a resource account to be associated in order to assign the phone number.

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-call-queue>

\\You don\\t directly associate a phone number to a call queue, instead the phone number is associated to a resource account. A call queue can be dialed directly or accessed by a selection on an auto attendant.\\'

Menu is only available for auto attendant, so therefore call queue does not have a menu option.

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-call-queue>

<https://docs.microsoft.com/en-us/microsoftteams/create-a-phone-system-auto-attendant>

QUESTION 5

HOTSPOT

You have a Microsoft 365 subscription that uses Microsoft Teams to collaborate with guest users.

You need to use monthly active users (MAU) billing and access reviews to monitor the team membership of the guest users.

Which additional licenses should you assign, and what should you do to enable MAU billing? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Additional licenses:

- Advanced Communications
- Azure Active Directory Premium Plan 1
- Azure Active Directory Premium Plan 2
- Office 365 Enterprise E5

To enable MAU billing:

- Enable external access in Microsoft Teams.
- Link an Azure subscription to the Azure Active Directory (Azure AD) tenant.
- Modify the External collaboration settings for the Azure Active Directory (Azure AD) tenant.
- Modify the Configure identity provider settings for the Azure Active Directory (Azure AD) tenant.

Correct Answer:

Additional licenses:

Advanced Communications
Azure Active Directory Premium Plan 1
Azure Active Directory Premium Plan 2
Office 365 Enterprise E5

To enable MAU billing:

Enable external access in Microsoft Teams.
Link an Azure subscription to the Azure Active Directory (Azure AD) tenant.
Modify the External collaboration settings for the Azure Active Directory (Azure AD) tenant.
Modify the Configure identity provider settings for the Azure Active Directory (Azure AD) tenant.
