QUESTION 1

Your company has a Microsoft Office 365 subscription.

All users can create private channels.

You need to prevent specific users from creating private channels. What should you create from the Microsoft Teams admin center?

A. a Teams policy

B. a meeting policy

C. a setup policy

D. a permission policy

Correct Answer: A

QUESTION 2

Your company uses Microsoft Teams.

You have a team named Team1 that has the channels shown in the following table.

Name	Type
General	General
Channel1	Standard
Channel2	Private

You plan to enable channel moderation for the channels. Which channels support channel moderation?

A. General and Channel1 only

B. Channel2 only

C. Channel1 only

D. Channel1 and Channel2 only

E. General, Channel1, and Channel2

F. General only

Correct Answer: C

Channel moderation is available for standard channels on Teams for desktop or web. It\\'s not available for the general channel or private channels. https://support.microsoft.com/en-us/office/change-moderator-roles-and-settings-in-a-channel-6ac54758-3440-4f6a-9bd5-cebf97cb7ea6

QUESTION 3

You need to resolve the issue reported by the project management department users. What should you do?

A. Instruct the users to launch Teams and select Check for updates.

B. Uninstall the current Teams client, and then reinstall the latest version of the client.

C. From the Microsoft Teams admin center, create and assign a new meeting policy.

D. From the Microsoft Teams admin center, modify the Meeting settings.

Correct Answer: C

QUESTION 4

You have a Microsoft 365 subscription that uses Microsoft Teams.

The subscription is configured to display de-identified names in all reports.

You need to publish reports on the usage of teams in the subscription. The solution must include only reports that support de-identified names.

Which two reports can you use? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

A. Teams live event usage

B. Teams user activity

C. PSTN blocked users

D. Teams usage

E. Teams device usage

Correct Answer: BD

Enabling this setting (see note below) will de-identify user, group, and site name information in the Teams user activity report, Teams device usage report, and Teams usage report.

Note: Make the user specific data anonymous

To make the data in Teams user activity report anonymous, you have to be a global administrator. The global

administrator can hide identifiable information (using MD5 hashes) such as display name, group name, email, and AAD ID in the

report and its export.

In Microsoft 365 admin center, go to the Settings > Org Settings, and under Services tab, choose Reports.

Select Reports, and then choose to Display concealed user, group, and site names in all reports. This setting gets applied both to the usage reports in Microsoft 365 admin center as well as Teams admin center.

Select Save changes

Note 2:

*

 The Teams user activity report gives insight into the types of activities that users in your organization do in Teams. You can see how many users communicate on an unplanned basis through unscheduled meetings (1:1 and group calls). See how many meetings a Teams user has organized, and meetings a Teams user has participated in. See details about screen, video, and audio minutes, and chat communication statistics, such as how many users reply to and post channel messages, and how many users engage in 1:1 or group chat messages.

*

 The Teams usage report in the Microsoft Teams admin center gives you an overview of the usage activity in Teams, including the number of active users and channels, so you can quickly see how many users across your organization are using Teams to communicate and collaborate. You can view usage information for teams, including the number of active users and channels, guests, and messages in each team.

*

 The Teams device usage report in the Microsoft Teams admin center provides you with information about how users connect to Teams. You can use the report to see the devices that are used across your organization, including how many use Teams from their mobile devices when on-the-go.
