**QUESTION 1**

**DRAG DROP**

A company plan to deploy Microsoft 365 services.

You need to choose the appropriate cloud service for each requirement.

Which cloud service should you choose for each requirement? To answer, drag the appropriate cloud services to the correct requirements. Each cloud service may be used once, more than once, or not at all. You may need to drag the split

bar between panes or scroll to view content.

NOTE: Each correct match is worth one point.

Select and Place:

**Cloud services**

- Exchange Online
- Microsoft Teams
- Yammer
- Microsoft Stream

**Answer Area**

- | <b>Requirement</b>  | <b>Cloud service</b>  |
|---|---|
| Users must be able to chat, host meetings, and make calls with internal and external users. | <div style="border: 1px solid #ccc; padding: 5px; width: 100%;">Cloud service</div> |
| Users must be able to create posts, tag people and communities, and use social tagging.     | <div style="border: 1px solid #ccc; padding: 5px; width: 100%;">Cloud service</div> |

Correct Answer:

**Cloud services**

- Exchange Online
- 
- 
- Microsoft Stream

**Answer Area**

- | <b>Requirement</b>  | <b>Cloud service</b>  |
|---|---|
| Users must be able to chat, host meetings, and make calls with internal and external users. | <div style="border: 1px solid #ccc; padding: 5px; width: 100%;">Microsoft Teams</div> |
| Users must be able to create posts, tag people and communities, and use social tagging.     | <div style="border: 1px solid #ccc; padding: 5px; width: 100%;">Yammer</div>          |

**QUESTION 2**

**HOTSPOT**

Instructions: For each of the following statements, select Yes if the statement is true.

Otherwise, select No.

NOTE: Each correct selection is worth one point-

Hot Area:

| Statements   | Yes                   | No                    |
|--|-----------------------|-----------------------|
| Microsoft Endpoint Manager helps manage and monitor Android OS -based mobile devices.      | <input type="radio"/> | <input type="radio"/> |
| Microsoft Endpoint Manager helps manage and monitor Windows 10 personal desktop computers. | <input type="radio"/> | <input type="radio"/> |
| Microsoft Endpoint Manager is used to manage company-owned devices only.                   | <input type="radio"/> | <input type="radio"/> |

Correct Answer:

| Statements   | Yes                              | No                               |
|--|----------------------------------|----------------------------------|
| Microsoft Endpoint Manager helps manage and monitor Android OS -based mobile devices.      | <input checked="" type="radio"/> | <input type="radio"/>            |
| Microsoft Endpoint Manager helps manage and monitor Windows 10 personal desktop computers. | <input checked="" type="radio"/> | <input type="radio"/>            |
| Microsoft Endpoint Manager is used to manage company-owned devices only.                   | <input type="radio"/>            | <input checked="" type="radio"/> |

Box 1: Yes

You can manage Android devices in Microsoft Intune.

Use the Microsoft Endpoint Manager admin center Dashboard to display overall details about the devices and client apps in your Intune tenant. Dashboards provide a way for you to create a focused and organized view in the Microsoft

Endpoint Manager admin center. Use dashboards as a workspace where you can quickly launch tasks for day-to-day operations and monitor resources.

Note: Microsoft Intune, which is a part of Microsoft Endpoint Manager, provides the cloud infrastructure, the cloud-based mobile device management (MDM), cloud-based mobile application management (MAM), and cloud-based PC management for your organization.

Box 2: Yes

Microsoft Intune is not just for mobile devices, it can be used for laptop and desktop management as well.

Box 3: No

Microsoft Intune enables mobile device management for:

Personal devices, including personally owned phones, tablets, and PCs.

Corporate-owned devices, including phones, tablets, and PCs owned by your organization and distributed to employees and students for use at work or school.

### QUESTION 3

DRAG DROP

A company is evaluating Microsoft cloud service offerings.

Match each offering to the cloud service.

Instructions: To answer, drag the appropriate offering from the column on the left to the cloud service on the right. Each offering might be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Select and Place:

|                                    | Cloud service    |
|------------------------------------|------------------|
|                                    | Booking calendar |
|                                    | Booking page     |
|                                    | Staff page       |
|                                    | Service page     |
| Infrastructure are a service(IaaS) | Offering         |
| Platform as a service(PaaS)        | Offering         |
| Software as a service(SaaS)        | Offering         |

Correct Answer:

|                                    | Cloud service                                 |
|------------------------------------|---|
|                                    | <input type="text"/>                          |
|                                    | <input type="text"/>                          |
|                                    | <input type="text" value="Staff page"/>       |
|                                    | <input type="text"/>                          |
| Infrastructure are a service(IaaS) | <input type="text" value="Service page"/>     |
| Platform as a service(PaaS)        | <input type="text" value="Booking page"/>     |
| Software as a service(SaaS)        | <input type="text" value="Booking calendar"/> |

**QUESTION 4**

**HOTSPOT**

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

## Answer Area

| Statement   | Yes                   | No                    |
|---|-----------------------|-----------------------|
| Adopting cloud applications reduces the number of on-premises servers and services to manage.   | <input type="radio"/> | <input type="radio"/> |
| For remote users, accessing applications stored in the cloud is easier than accessing applications stored on a company network.         | <input type="radio"/> | <input type="radio"/> |
| A loss of internet connectivity will not significantly impact functionality for users accessing applications and services in the cloud. | <input type="radio"/> | <input type="radio"/> |

Correct Answer:

## Answer Area

| Statement   | Yes                              | No                               |
|---|----------------------------------|----------------------------------|
| Adopting cloud applications reduces the number of on-premises servers and services to manage.   | <input checked="" type="radio"/> | <input type="radio"/>            |
| For remote users, accessing applications stored in the cloud is easier than accessing applications stored on a company network.         | <input checked="" type="radio"/> | <input type="radio"/>            |
| A loss of internet connectivity will not significantly impact functionality for users accessing applications and services in the cloud. | <input type="radio"/>            | <input checked="" type="radio"/> |

### QUESTION 5

#### DRAG DROP

A company is migrating to Microsoft 365.

The company is evaluating work management features in Microsoft 365. You need to recommend the appropriate Microsoft 365 services.

Which services should you recommend? To answer, drag the appropriate services to the correct features. Each service may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view

content

NOTE: Each correct selection is worth one point.

Select and Place:

**Services**

- Microsoft Bookings
- Microsoft Planner
- Microsoft Project
- Microsoft To Do

**Feature**

- Provides a service that allows you to track, manage, and organize your team's appointments and calendars.
- Provides a service that allows you to assign and manage tasks by using task cards.
- Provides a service that allows you to plan, prioritize, and manage resources.

**Service**

- Microsoft Bookings
- Microsoft To Do
- Microsoft Planner

Correct Answer:

**Services**

- 
- Microsoft Planner
- 
- 

**Feature**

- Provides a service that allows you to track, manage, and organize your team's appointments and calendars.
- Provides a service that allows you to assign and manage tasks by using task cards.
- Provides a service that allows you to plan, prioritize, and manage resources.

**Service**

- Microsoft Bookings
- Microsoft Project
