QUESTION 1

A customer is configuring an EF570 system on an internal network. Due to security concerns, the network does not have Internet access. The customer wants to regularly send standard support data to NetApp.

In this scenario, what should the customer do to accomplish this task?

- A. Enable AutoSupport with a set interval and with the store locally option selected, manually move the data to a server with Internet access, and then send the data to NetApp.
- B. Open a support ticket with NetApp to enable AutoSupport local functionality, manually move the data to a server with Internet access, and then send the data to NetApp.
- C. Set up a script to initiate Collect Support Data on a set interval, manually move the data to a server with Internet access, and then send the data to NetApp.
- D. Set up a script to initiate Collect Support Data, remove the extra log files, manually move the data to a server with Internet access, and then send the data to NetApp.

Correct Answer: A

QUESTION 3

A company is using the Federal Information Processing Standard (FIPS) on all volume groups. However, one volume group failed a security audit.

In this scenario what would cause a volume group to fail the security audit?

- A. An FDE drive was added as a spare in the volume group

- B. Data Assurance was changed to "disabled" for the volume group
- C. The Secure Erase operation was applied to the volume group disks
- D. Connectivity to the key server was interrupted

Correct Answer: A

QUESTION 4

Which three documents should be provided to the customer after the E-Series installation is complete? (Choose three.)

- A. a document showing how much space is available for system expansion
- B. a document showing the cabinet layout with cabling information and IP addresses being used
- C. a document showing user IDs and passwords for all deployed devices
- D. a document with IMT pages that show the supported host configuration and fabric switches in the solution
- E. a document showing available power on the UPS with no equipment connected

Correct Answer: BCE

QUESTION 5

Click the Exhibit button.

Referring to the exhibit, which cable is an InfiniBand 4X connector?

- A. 3
- B. 1
- C. 2
- D. 4

Correct Answer: C
