QUESTION 1

How does your FortiWeb configuration differ if the FortiWeb is upstream of the SNAT device instead of downstream of the SNAT device?

A. You must enable the "Use" X-Forwarded-For: option.

B. FortiWeb must be set for Transparent Mode

C. No special configuration required

D. You must enable "Add" X-Forwarded-For: instead of the "Use" X-Forwarded-For: option.

Correct Answer: D

QUESTION 2

Which statement about local user accounts is true?

A. They are best suited for large environments with many users.

B. They cannot be used for site publishing.

C. They must be assigned, regardless of any other authentication.

D. They can be used for SSO.

Correct Answer: B

QUESTION 3

The FortiWeb machine learning (ML) feature is a two-phase analysis mechanism. Which two functions does the first layer perform? (Choose two.)

A. Determines whether an anomaly is a real attack or just a benign anomaly that should be ignored

B. Builds a threat model behind every parameter and HTTP method

C. Determines if a detected threat is a false-positive or not

D. Determines whether traffic is an anomaly, based on observed application traffic over time

Correct Answer: BD

The first layer uses the Hidden Markov Model (HMM) and monitors access to the application and collects data to build a mathematical model behind every parameter and HTTP method. Reference:

QUESTION 4

When generating a protection configuration from an auto learning report what critical step must you do before generating the final protection configuration?

A. Restart the FortiWeb to clear the caches

B. Drill down in the report to correct any false positives.

C. Activate the report to create t profile

D. Take the FortiWeb offline to apply the profile

Correct Answer: B

QUESTION 5

In which scenario might you want to use the compression feature on FortiWeb?

A. When you are serving many corporate road warriors using 4G tablets and phones

B. When you are offering a music streaming service

C. When you want to reduce buffering of video streams

D. Never, since most traffic today is already highly compressed

Correct Answer: A

https://training.fortinet.com/course/view.php?id=3363 When might you want to use the compression feature on FortiWeb? When you are serving many road warriors who are using 4G tablets and phones
