Following Questions and Answers are all new published by Fortinet Official Exam Center

QUESTION 1

You are deploying Amazon Web Services (AWS) GuardDuty to monitor malicious or unauthorized behaviors related to AWS resources. You will also use the Fortinet aws-lambda-guardduty script to translate feeds from AWS GuardDuty findings into a list of malicious IP addresses. FortiGate can then consume this list as an external threat feed.

Which Amazon AWS services must you subscribe to in order to use this feature?

A. GuardDuty, CloudWatch, S3, Inspector, WAF, and Shield.

B. GuardDuty, CloudWatch, S3, and DynamoDB.

C. Inspector, Shield, GuardDuty, S3, and DynamoDB.

D. WAF, Shield, GuardDuty, S3, and DynamoDB.

Correct Answer: A

QUESTION 2

Customer XYZ has an ExpressRoute connection from Microsoft Azure to a data center. They want to secure communication over ExpressRoute, and to install an in-line FortiGate to perform intrusion prevention system (IPS) and antivirus scanning.

Which three methods can the customer use to ensure that all traffic from the data center is sent through A. Install FortiGate in Azure and build a VPN tunnel to the data center over ExpressRoute

B. Configure a user-defined route table

C. Enable the redirect option in ExpressRoute to send data center traffic to a user-defined route table

D. Configure the gateway subnet as the subnet in the user-defined route table

E. Define a default route where the next hop IP is the FortiGate WAN interface

Correct Answer: CDE

QUESTION 3

An organization deploys a FortiGate-VM (VM04 / c4.xlarge) in Amazon Web Services (AWS) and configures two elastic network interfaces (ENIs). Now, the same organization wants to add additional ENIs to support different workloads in their environment.

Which action can you take to accomplish this?

A. None, you cannot create and add additional ENIs to an existing FortiGate-VM.

B. Create the ENI, shut down FortiGate, attach the ENI to FortiGate, and then start FortiGate.

C. Create the ENI, attach it to FortiGate, and then restart FortiGate.

D. Create the ENI and attach it to FortiGate.

Correct Answer: B

QUESTION 4

```
207                    "osDisk": {
208                      "osType": "Linux",
209                      "name": "sstentazfgt0402build3232disk01",
210                      "caching": "ReadWrite",
211                      "createOption": "Empty",
212                      "managedDisk": {
213                          "storageAccountType": "Standard_LRS"
214                              },
215                          "diskSizeGB": 2
216                      },
217                      "dataDisks": {
218                          {
219                              "lun": 0,
220                              "name": "sstentazfgt0402build3232disk02",
221                              "createOption": "Empty",
222                              "caching": "None",
223                              "managedDisk": {
224                                  "storageAccountType": "Standard_LRS"
225                              },
226                              "diskSizeGB": 30
227                          },
228                      ]
229                  },
```

Refer to the exhibit. You attempted to deploy the FortiGate-VM in Microsoft Azure with the JSON template, and it failed to boot up. The exhibit shows an excerpt from the JSON template.

What is incorrect with the template?

A. The LUN ID is not defined.

B. FortiGate-VM does not support managedDisk from Azure.

C. The caching parameter should be None.

D. The CreateOptions parameter should be FromImage.

Correct Answer: D

QUESTION 5

An organization deployed a FortiGate-VM in the Google Cloud Platform and initially configured it with two vNICs. Now,

the same organization wants to add additional vNICs to this existing FortiGate-VM to support different workloads in their environment.

How can they do this?

A. They can create additional vNICs using the Cloud Shell.

B. They cannot create and add additional vNICs to an existing FortiGate-VM.

C. They can create additional vNICs in the UI console.

D. They can use the Compute Engine API Explorer.

Correct Answer: D
