QUESTION 1

A technical seller has conducted an IBM Decision Optimization Discovery Workshop with a client. Which outcomes are essential to conclude the discovery?

- A. An understanding of the business situation as well as the technical and financial information.
- B. An understanding of the business situation as well as the solution overview and the solution approach.
- C. The stakeholders being convinced as well as the technical and financial information.
- D. The definition of a Proof of Concept has been established as well as the solution overview and the solution approach

Correct Answer: B

QUESTION 2

A client invites a technical seller to a meeting in order to discuss a new Sales and Operations Planning RFI they just issued. During the discussion they ask about what's unique about IBM Decision Optimization's value proposition. Knowing that they mentioned either using a packaged solution or a custom solution, the technical seller should answer that the offering is unique due to:

- A. No one else can develop custom solutions as timely as IBM
- B. Decision Optimization has a solution based upon an existing SAP connector only.
- C. IBM has a unique combination of skills, flexible platform and industry know how.
- D. IBM has multiple references to offer this prospect.

Correct Answer: C

QUESTION 3

A large paper manufacturer makes standard and specialty papers. The production process makes batches of long rolls of paper. Individual customer orders can be accommodated by cutting the rolls into segments of varying widths. They have requested that IBM develop an optimization solution that improves their operational efficiency. Which is an appropriate goal to be optimized in this situation?

- A. Reduce scrap loss.
- B. Verify all customer orders.
- C. Estimate set-up times between orders.
- D. Design a color pattern for each roll processed.

Correct Answer: A

QUESTION 4

A prospect is considering potential implementations of decision optimization and business intelligence. Which best describes the relationship between these two technologies?

- A. Business Intelligence provides valuable insight into data that complements Decision Optimization.
- B. Decision Optimization requires implementation of Business Intelligence.
- C. C. Business Intelligence and Decision Optimization serve the same purpose. There is no value in implementing both
- D. Business Intelligence and Decision Optimization are completely distinct and not suitable for integration.

Correct Answer: A

QUESTION 5

A customer wants to deploy an optimization based solution in a scalable and high availability (HA) deployment environment that provides failover and load balancing capabilities. Which application server can be used for deploying Decision Optimization Center server components to provide an HA environment?

- A. WebSphere Application Server Community Edition
- B. WebSphere Application Server Network Deployment
- C. Oracle WebLogic Server
- D. WebSphere Application Server

Correct Answer: D
