Following Questions and Answers are all new published by Palo Alto Networks Official Exam Center

QUESTION 1

DRAG DROP

Match the network infrastructure item with its corresponding description.

Select and Place:

router	Drag answer here		provides data to systems on a LAN, WAN, or over the internet
firewall	Drag answer here		connects to electronic resources through network architecture
server	Drag answer here		forwards packets from one network to another based on destination address
client	Drag answer here		connects global WAN computer systems across the world
internet	Drag answer here		prevents unauthorized communication between computer networks and hosts

Correct Answer:

router	forwards packets from one network to another based on destination address
firewall	prevents unauthorized communication between computer networks and hosts
server	provides data to systems on a LAN, WAN, or over the internet
client	connects to electronic resources through network architecture
internet	connects global WAN computer systems across the world

QUESTION 2

Which network method securely connects two sites across a public network?

A. VPN

B. VLAN

C. switch

D. router

Correct Answer: A

QUESTION 3

DRAG DROP

Match the OSI network model Layer 3 function to the correct description.

Select and Place:

routing	Drag answer here		provides service to direct packets to their destination host
encapsulation	Drag answer here		wraps transport layer data in IP packets
decapsulation	Drag answer here		provides segments or datagrams to the transport layer
addressing	Drag answer here		provides a mechanism for identifying end devices

Correct Answer:

routing	provides service to direct packets to their destination host
encapsulation	wraps transport layer data in IP packets
decapsulation	provides segments or datagrams to the transport layer
addressing	provides a mechanism for identifying end devices

QUESTION 4

Which two items operate at the network layer in the OSI network model? (Choose two.)

A. IP address

B. router

C. switch

D. MAC address

Correct Answer: AB

QUESTION 5

Review the exhibit and identify the type of vulnerability or attack.

Thank you all for your hard work at accomplishing continued company success. Our company recognizes the contributions of its employees and has decided that as a token of appreciation all employees are eligible to participate in a company-sponsored raffle.

- **1** lucky winner will receive a $500 American Express Gift Certificate
