QUESTION 2

A customer's Security Operations Center (SOC) team wants to receive alerts from Prisma Cloud via email once a day about all policies that have a violation, rather than receiving an alert every time a new violation occurs. Which alert rule configuration meets this requirement?

- A. Configure an alert rule with all the defaults except selecting email within the "Alert Notifications" tab and specifying recipient.
- B. Configure an alert rule. Under the "Policies" tab, select "High Risk Severity Policies." In the "Set Alert Notifications" tab, select "Email > Recurring," set to repeat every 1 day, and enable "Email."
- C. Set up email integrations under the "Integrations" tab in "Settings" and create a notification template.
- D. Configure an alert rule. Under the "Policies" tab, select "All Policies." In the "Set Alert Notifications" tab, select "Email > Recurring," set to repeat every 1 day, and then enable "Email."

Correct Answer: D

QUESTION 3

A Prisma Cloud administrator is onboarding a single GCP project to Prisma Cloud. Which two steps can be performed by the Terraform script? (Choose two.)

- A. enable ow logs for Prisma Cloud.
- B. create the Prisma Cloud role.
- C. enable the required APIs for Prisma Cloud.
- D. publish the ow log to a storage bucket.

Correct Answer: BC

QUESTION 4

The attempted bytes count displays?

- A. traffic that is either denied by the security group or firewall rules or traffic that was reset by a host or virtual machine that received the packet and responded with a RST packet.
- B. traffic that is either denied by the security group or firewall rules.
- C. traffic that is either denied by the firewall rules or traffic that was reset by a host or virtual machine that received the packet and responded with a RST packet.
- D. traffic denied by the security group or traffic that was reset by a host or virtual machine that received the packet and responded with a RST packet.

Correct Answer: A
