QUESTION 1

Which menu item enables a firewall administrator to see details about traffic that is currently active through the NGFW?

- A. App Scope
- B. ACC
- C. Session Browser
- D. System Logs

Correct Answer: C

Session browser. However ACC will show metadata on traffic through the firewall, and you can create some helpful on-the-fly reports, but these will not provide deep detail. Alternatively for more detail you can go to Monitor > Traffic and filter for relevant sessions.

QUESTION 2

Which two methods can be used to mitigate resource exhaustion of an application server? (Choose two)

- A. Vulnerability Object
- B. DoS Protection Profile
- C. Data Filtering Profile
- D. Zone Protection Profile

Correct Answer: BD

QUESTION 3

Which Captive Portal mode must be configured to support MFA authentication?

- A. NTLM
- B. Redirect
- C. Single Sign-On
- D. Transparent

Correct Answer: B

Reference: <https://www.paloaltonetworks.com/documentation/80/pan-os/pan-os/authentication/configure-multi-factor-authentication>

QUESTION 4

An administrator needs to validate that policies that will be deployed will match the appropriate rules in the device-group hierarchy. Which tool can the administrator use to review the policy creation logic and verify that unwanted traffic is not allowed?

- A. Policy Optimizer
- B. Test Policy Match
- C. Preview Changes
- D. Managed Devices Health

Correct Answer: B

<https://docs.paloaltonetworks.com/panorama/9-0/panorama-admin/troubleshooting/test-policy-match-and-connectivity-for-managed-devices.html> After you successfully push the device group and template stack configurations to your firewalls, Log Collectors, and WF-500 appliances, test that the correct traffic matches the policy rules pushed to your managed devices and that your firewalls can successfully connect to all appropriate network resources.

QUESTION 5

Which Device Group option is assigned by default in Panorama whenever a new device group is created to manage a Firewall?

- A. Master
- B. Universal
- C. Shared
- D. Global

Correct Answer: C
