QUESTION 1

While preparing to release an application, you notice a guardrail violation on an activity you wrote. The activity copies the content of a previous customer order to the current order. How do you address the guardrail violation?

- A. Justify the warning, since an activity is required in this situation.
- B. Replace the activity with a data transform to copy the content of the previous order to the current order.
- C. Identify an API activity to use in place of the activity you wrote.
- D. Ignore the warning if the compliance score is 90 or greater, since the application is considered ready for release.

Correct Answer: B

QUESTION 2

A data page holds the local weather information and has the Reload if Older Than field set to 10 minutes. The data page is created at 11:22. The user then performs the following actions:

11:28 the user refreshes the weather information

11:40

the user refreshes the weather information At what time is the data page reloaded?

- A.
11:38
- B.
11:40
- C.
11:32
- D.
11:28

Correct Answer: B

QUESTION 3

Pega 7 comes with numerous API activities. In which situation would you explore available API activities?

- A. When automating case processing
- B. When creating a new case type

- C. When designing your data model
- D. When debugging an application

Correct Answer: A

QUESTION 4

An application allows bank customers to apply for a credit card. During the process of applying for the credit card, customers can elect to transfer a balance to the card. The bank currency offers three balance transfer options for customers applying for a new credit card:

1.
0 percent interest for 6 months.
2.
2.9 percent interest for 12 months.
3.
3.9 percent interest for 24 months.

The bank requires that customers first elect whether to transfer a balance. If customers elect to transfer a balance, they must select one of the three options.

Which control allows you to display all the balance transfer offers on the form, but only allows the customer to select one offer?

- A. Radio buttons
- B. Check box
- C. Picklist
- D. Text area

Correct Answer: A

QUESTION 5

You are designing a case type that includes a process to perform when a case is rejected. How do you model this requirement in the case life cycle?

- A. Add a primary stage and add the rejection process to the stage.
- B. Add an alternate stage and add the rejection process as an optional process to the stage.
- C. Add an alternate stage and add the rejection process to the stage.
- D. Add the rejection process to all the primary stages as an optional process.

Correct Answer: C
