QUESTION 1

You are creating a case type to process job applications for a large corporation. Job applications for security positions require a physical assessment in addition to the standard criminal background check. The physical assessment can occur before or after the background check.

How do you configure a case type to achieve the required behavior?

- A. Create a process for the physical assessment that is followed by a process for the background check.
- B. Create a process for the physical assessment that is parallel to the background check process.
- C. Create a process on one stage for the background check and a process on another stage for the physical assessment.
- D. Create a process for the background check and an optional process for the physical assessment.

Correct Answer: A

QUESTION 2

Which two conditions do you test with a unit test? (Choose two.)

- A. A property value is set correctly by a data transform.
- B. An application is successfully migrated to a test system.
- C. A data page populates without any errors.
- D. An application displays user views for 20 users within three seconds.

Correct Answer: AB

QUESTION 3

A manager requests a report that contains the following columns: Create Date, Case ID, Create Operator, and Work Status. You must sort the cases so the case with the most recent create date appears at the top of the list and descends in order.

How do you design the report definition to support this requirement?

- A. Add a filter condition where Create Date is greater than the current date.
- B. Make the Create Date the first column in the report.
- C. Select Highest to Lowest sort type for Create Date.
- D. Select Lowest to Highest sort type for Create Date.

Correct Answer: D

QUESTION 4

To qualify for an instant loan, an applicant must earn a monthly income of at least GBP2000 and cannot exceed GBP20000 in total liability. How do you enforce these restrictions when requesting an instant loan?

- A. Use a Validate rule to call two Edit validate rules: one for income and one for liability.
- B. Use a single Validate rule with two conditions: one for income and one for liability.
- C. Use UI controls to validate the entries in the income and liability fields.
- D. Use two Edit Validate rules: one for income and one for liability.

Correct Answer: B

QUESTION 5

DRAG DROP

Select each Flow Shape on the left and drag it to the correct Use Case on the right.

Select and Place:

Flow Shape

Flow Shape

Use Case

Call a decision rule to determine the course of flow processing based on case data.

Present a form to the user to provide or review information about a case.

Execute a subprocess, then return to the current process.

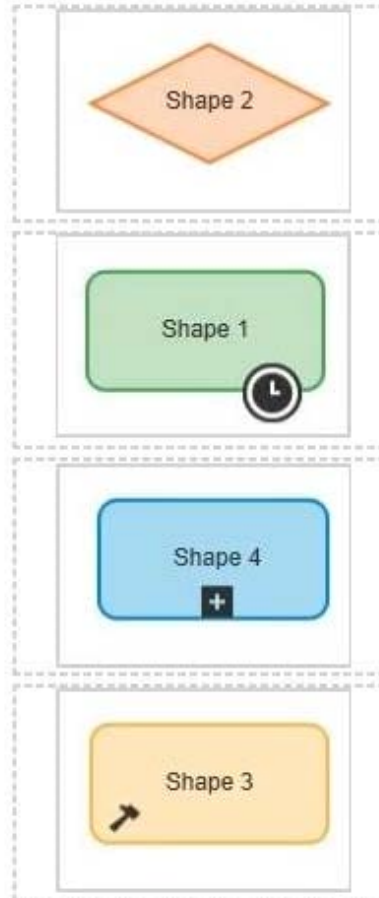

Perform an automated system action on a case.

Correct Answer:

Flow Shape

Flow Shape

Use Case

Call a decision rule to determine the course of flow processing based on case data.

Present a form to the user to provide or review information about a case.

Execute a subprocess, then return to the current process.

Perform an automated system action on a case.
