- A. Power Apps
- B. Azure Active Directory
- C. Power Automate
- D. Azure Machine learning
- E. Power BI

Correct Answer: ACE

---

### QUESTION 3

#### DRAG DROP

A company uses a model-driven app for its sales team.

You must customize a form to meet the following requirements:

1.

If a check box is checked, a hidden field must appear.

2.

The form must display a list of customers and fields about customers.

You need to identify the components a developer must configure to meet the requirements. What should you identify?

Select and Place:

## Components

Column

View

Form

Table

## Requirement

Hidden field appears

List of customers and fields displays

## Component

Component

Component

Correct Answer:

## Components

View
Table

## Requirement

Hidden field appears

List of customers and fields displays

## Component

Column
Form

### QUESTION 4

You are creating a Power Automate flow.

The flow must read each item in a Microsoft SharePoint list that details sales opportunities and set the value for a field named Status to Overdue if the value of a field named Follow up is less than or equal to the current date.

You need to select the appropriate component to cycle through the entire list.

Which component should you use?

- A. Connector
- B. Action
- C. Trigger
- D. Condition

Correct Answer: D

Reference: <https://docs.microsoft.com/en-us/power-automate/use-expressions-in-conditions>

### QUESTION 5

You complete development and testing of a new canvas app. You add users to a security team and assign the security team permissions to the app.

Users are unable to view the app.

You need to ensure that users can launch and use the app.

What should you do?

- A. Add the application to the solution.
- B. Publish the application.
- C. Share the application.
- D. Add a Power Apps Component Framework (PCF) control to the application.

Correct Answer: B

Whenever you save changes to a canvas app, you automatically publish them only for yourself and anyone else who has permissions to edit the app. When you finish making changes, you must explicitly publish them to make them available

to everyone with whom the app is shared.

Reference:

<https://docs.microsoft.com/en-us/power-apps/maker/canvas-apps/save-publish-app>
