**QUESTION 1**

While preparing the Risk Management Strategy, the Project Manager considered the commercial customer/supplier environment and how this may affect the management of risk. Which approach should the Outsourcing project adopt?

- A. Plan to use the selected service provider's risk management procedures.
- B. All project risks associated with the specialist deliverables should be owned by the selected service provider.
- C. Due to the sensitive nature of this project, consideration should be given to creating a separate Risk Register to be held by MFH and the selected supplier.

Correct Answer: C

QUESTION 2

Which of the following is the definition for an off-specification?

- A. An issue the Project Manager needs to resolve or escalate
- B. Something forecast or currently not meeting specification
- C. A proposal for a change to a baseline
- D. A statement of concern

Correct Answer: B

QUESTION 3

Which statement is an appropriate entry for the Initiation Stage Plan?

- A. The Daily Log has been updated with the new risks which were identified while preparing the Initiation Stage Plan.
- B. The plan is based on the external outsourcing consultants being available at the start of the initiation stage.
- C. The initial project cost estimate of ?5m, will have a tolerance of +?25k J

Correct Answer: B

QUESTION 4

Scenario Additional Information Product Description

| Title | Service Level Agreement. |
|--------------------------|---|
| Purpose | <ul style="list-style-type: none"> This agreement specifies the level of service MFH requires from the selected service provider and provides measurable criteria against which the selected service provider's performance will be assessed. |

Confidentiality provisions. Conditions for termination of contract. Glossary of technical terms contained in SLA. |
| Format and presentation | <ul style="list-style-type: none"> A4, Word document, printed both sides in black and white. Font: Arial, 12pts. |
| Quality criteria | <ul style="list-style-type: none"> Contains all composition items listed above. Not more than 60 pages. Complies with MFH corporate branding standards. No typographical errors. |
| Quality skills required | <ul style="list-style-type: none"> Proof-reading skills. Director of Compliance Division - Reviewer. Director of Information Technology Division - Reviewer. Administrator. |
| Quality responsibilities | <ul style="list-style-type: none"> Producer/Presenter: Director of Facilities Division. Chair: Project Manager. |

Quality notes from the Daily Log

The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff

before the final contract is signed with the selected service provider.

The service level agreement between MFH and the selected service provider will specify the type and quality of service required. The selected service provider must follow the industry standards for providing outsourced services.

MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management.

All project documents will be subject to a quality review. Nominated products will require a formal approval record signed-off by the quality review chair.

Extract from the draft Quality Management Strategy (may contain errors)

Introduction

1.

This document defines the approach to be taken to achieve the required quality levels during the project.

2.

The Project Board will have overall responsibility for the Quality Management Strategy.

3.

Project Assurance will provide assurance on the implementation of the Quality Management Strategy. Quality management procedure - Quality standards

4.

The selected service provider will operate to industry standards for providing outsourced services.

5.

MFH document standards will be used.

Records

6.

A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities.

7.

Configuration Item Records will be maintained for each product to describe its status, version and variant.

8.

Approval records for products that require them will be stored in the quality database. Roles and responsibilities

9.

The DIT will check that the employment contracts for outsourced staff adhere to employment law.

10.

Team Managers will provide details of quality checks that have been carried out.

11.

Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process.

12.

The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved.

The service level agreement looks like any other MFH document.

- A. Obtain agreement from the Director of Facilities Division to redesign the service level agreement within the remaining +2 days tolerance.
- B. Raise an issue (off-specification).
- C. Accept this error as a concession.
- D. No action required.

Correct Answer: D

QUESTION 5

Scenario

Additional Information

Extract from the Communication Management Strategy.

The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct document.

| | |
|--|---|
| Introduction | 1. This document contains details of how the project management team will send information to individuals working on the Calendar project, and receive information from them. |
| Communication procedure | 2. See MNO Manufacturing Company standards for all internal company communications. |
| Tools and techniques | 3. Use the staff newsletter to launch the label design competition and to promote the chosen label design. 4. Using the number of responses to the label design competition as a measure, report fortnightly to the Project Board on the effectiveness of the staff newsletter as a vehicle for communication. 5. Use the company website to advertise the promotional calendar to customers. |
| Records | 6. A record should be maintained for each product of the project. As a minimum this should show the project name, product name, product title, and version number. 7. External email and correspondence relating to the Calendar project should be recorded electronically in the project folder. 8. Information received in hard copy should, where possible, be scanned and filed as above. |
| Timing of communication activities | 9. At the end of each stage, audit and report on the performance of the communication methods being used. 10. Highlight Reports to be provided to appropriate stakeholders, at the frequency defined in each Stage Plan. |
| Stakeholder analysis: Interested parties | 11. Photographer. 12. Print company. |
| Information needs for each interested party | 13. Weekly updates will be provided by email to the individual producing the staff newsletter. 14. Engineering Manager is to be consulted when preparing the photo session schedule. |

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board. The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PIO). The PIO includes the Business Case, a product checklist and several Product Descriptions, including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality - results. After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

There is no mention of any Stage Plans, yet there are two further stages proposed. How will this be resolved?

A. It is appropriate for the Calendar project to be run as two further stages as there is a key decision to be made at the end of stage 2. Stage Plans will be produced.

B. Whilst the activities are divided into two further stages, there is no reason why the Calendar project should use stages. The project will therefore be run as a single stage project and the activities will be added to the Initiation Stage Plan.

C. There will be three Stage Plans, the two management stages plus an additional stage to plan and complete the activities of the Closing a Project process.

Correct Answer: A
