QUESTION 1

Scenario

Additional Information

Extract from the Communication Management Strategy.

The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct document.

Introduction	1. This document contains details of how the project management team will send information to individuals working on the Calendar project, and receive information from them.
Communication procedure	2. See MNO Manufacturing Company standards for all internal company communications.
Tools and techniques	3. Use the staff newsletter to launch the label design competition and to promote the chosen label design. 4. Using the number of responses to the label design competition as a measure, report fortnightly to the Project Board on the effectiveness of the staff newsletter as a vehicle for communication. 5. Use the company website to advertise the promotional calendar to customers.
Records	6. A record should be maintained for each product of the project. As a minimum this should show the project name, product name, product title, and version number. 7. External email and correspondence relating to the Calendar project should be recorded electronically in the project folder. 8. Information received in hard copy should, where possible, be scanned and filed as above.
Timing of communication activities	9. At the end of each stage, audit and report on the performance of the communication methods being used. 10. Highlight Reports to be provided to appropriate stakeholders, at the frequency defined in each Stage Plan.
Stakeholder analysis: Interested parties	11. Photographer. 12. Print company.
Information needs for each interested party	13. Weekly updates will be provided by email to the individual producing the staff newsletter. 14. Engineering Manager is to be consulted when preparing the photo session schedule.

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board. The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project

process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PIO). The PIO includes the Business Case, a product checklist and several Product Descriptions, including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality - results. After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

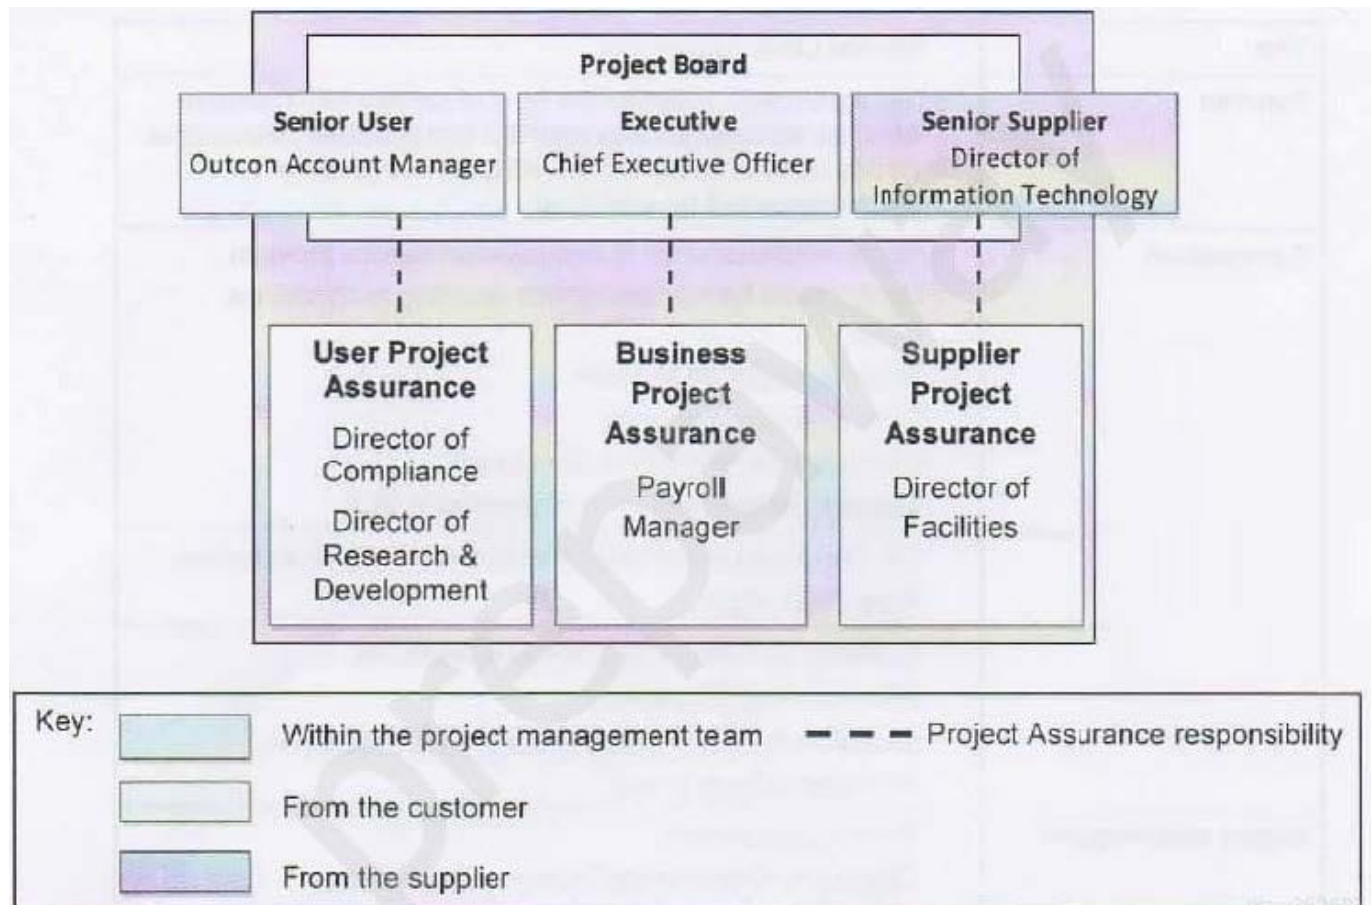

No Benefits Review Plan has been developed. Where should the schedule of benefit reviews be recorded?

- A. As deliverables of the project, all benefit reviews should be scheduled and documented in the Project Plan during initiation.
- B. Small projects do not require a schedule of benefit reviews as only one review is required towards the end of the project and this should be documented within the Business Case.
- C. Benefit reviews should be planned and recorded in the simple PID.

Correct Answer: C

QUESTION 2

Scenario Additional Information

Further information on some resources who could be involved in the project:

Outcome Account Manager: He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project. **Director of Finance Division:** She was transferred from the Information Technology Division 12 months ago. She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of

Food Hygiene.

Hardware Manager: Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software.

Payroll Manager: Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in

drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards.

Which 2 alternative actions apply to the proposed supplier assurance for this project?

- A. Retain because he has a professional facilities qualification and so is in a position to specify the needs of his division.
- B. Retain because he will be able to advise on many of the products that will enable outsourcing to happen, such as the 10-year outsourcing service contract.
- C. Retain because he is well-regarded within the Ministry because of the efficiencies, superb service and savings he has achieved in the Facilities Division.
- D. Add 'Outcome Account Manager' because he will advise on potential changes and their impact on the integrity of the project's products.
- E. Remove because he is involved with the project and is therefore NOT independent.

Correct Answer: BD
