QUESTION 1

How does Autonomous Digital Experience Management (ADEM) improve user experience?

- A. The root cause of any alert can be viewed with a single click, allowing users to swiftly stop attacks across the environment.
- B. The virtual appliance receives and stores firewall logs without using a local Log Collector, simplifying required steps users must take.
- C. Working from home or branch offices, all users get the benefit of a digital experience management solution without the complexity of installing additional software and hardware.
- D. It applies in-depth hunting and forensics knowledge to identify and contain threats before they become a breach.

Correct Answer: C

QUESTION 2

In which step of the Five-Step Methodology for implementing the Zero Trust model are the services most valuable to the company defined?

- A. Step 2: Map the transaction flows
- B. Step 4: Create the Zero Trust policy
- C. Step 5: Monitor and maintain the network
- D. Step 1: Define the protect surface

Correct Answer: D

QUESTION 3

What is a benefit of deploying secure access service edge (SASE) with a secure web gateway (SWG) over a SASE solution without a SWG?

- A. A heartbeat connection between the firewall peers ensures seamless failover in the event that a peer goes down.
- B. It prepares the keys and certificates required for decryption, creating decryption profiles and policies, and configuring decryption port mirroring.
- C. Protection is offered in the cloud through a unified platform for complete visibility and precise control over web access while enforcing security policies that protect users from hostile websites.
- D. It creates tunnels that allow users and systems to connect securely over a public network as if they were connecting over a local area network (LAN).

Correct Answer: C

QUESTION 4

Which two key benefits have been identified for a customer investing in the Palo Alto Networks Prisma secure access service edge (SASE) solution? (Choose two.)

- A. decreased likelihood of a data breach
- B. reduced input required from management during third-party investigations
- C. decreased need for interaction between branches
- D. reduced number of security incidents requiring manual investigation

Correct Answer: BD

QUESTION 5

Which two services are provided by Prisma Access Insights? (Choose two.)

- A. summary overview screen of the health and performance of an organization's entire Prisma Access environment
- B. configuration of the on-premises firewall located behind the service-connection termination
- C. detection of hard-to-find security issues via AI-based innovations to normalize, analyze, and stitch together an enterprise's data
- D. multiple dashboards for focused views of different deployments, the corresponding alerts, and the health status of the infrastructure

Correct Answer: AD
