Correct Answer: D

QUESTION 2

The _____ principle is primarily concerned with ensuring that services exercise a high level of control over their underlying runtime execution environment. Select the correct answer.

A. Service Performance

B. Service Autonomy

C. Service Agility

D. Service Abstraction

Correct Answer: B

QUESTION 3

Which of the following is a common reason as to why the Standardized Service Contract principle is not followed in some organizations? Select the correct answer.

A. Development tools are used to auto-generate the details of the technical service contract.

B. Developers ignore service contract design standards.

C. Developers are required to use pre-defined third-party service contracts obtained with the purchase of legacy system adapters.

D. All of the above.

Correct Answer: D

QUESTION 4

When applying the Service Loose Coupling principle _____ coupling types are avoided in order to _____ the governance independence of the service. Select the correct answer.

A. positive, minimize

B. negative, minimize

C. negative, maximize

D. positive, maximize

Correct Answer: C

QUESTION 5

Which of the following is a common challenge imposed by the adoption of service- orientation? Select the correct answer.

A. Service-orientation introduces the need for design standards, which need to be followed and enforced.

B. Service-orientation requires that you commit to one vendor platform, which can limit your product options.

C. Service-orientation requires that services be protected from repeated reuse, which can reduce potential ROI.

D. Service-orientation introduces the need to make all implementation details about each service publicly available, which can lead to the misuse of this information by some project teams.

Correct Answer: A
