## QUESTION 1

Which of these sentences is written following the standard rules of grammar and punctuation?

- A. The bear settled in for its hibernation period after having stuffed itself with salmon and berries: two of the staple foods bears eat.
- B. When she met the man of her dreams: it was just like in the fairy tales, the birds started singing and fireworks exploded in the sky.
- C. Simone was hired to help the old woman shop for groceries, drive her to her doctor's appointments, and spend time with her; she was not hired to clean the house or do the gardening.
- D. Harold and Megan was flagged down on their way to the party by a driver whose car had died on the side of the road, they stopped to help.

Correct Answer: C

## QUESTION 2

Read the story attached.

"Roughing It" by Mark Twain

My brother had just been appointed Secretary of Nevada Territory ?an office of such majesty that it concentrated in itself the duties and dignities of Treasurer, Comptroller, Secretary of State, and Acting Governor in the Governor's absence. A salary of eighteen hundred dollars a year and the title of "Mr. Secretary," gave to the great position an air of wild and imposing grandeur. I was young and ignorant, and I envied my brother. I coveted his distinction and his financial splendor, but particularly and especially the long, strange journey he was going to make, and the curious new world he was going to explore. He was going to travel! I never had been away from home, and that word "travel" had a seductive charm for me. Pretty soon he would be hundreds and hundreds of miles away on the great plains and deserts, and among the mountains of the Far West, and would see buffaloes and Indians, and prairie dogs, and antelopes, and have all kinds of adventures, and may be get hanged or scalped, and have ever such a fine time, and write home and tell us all about it, and be a hero. And he would see the gold mines and the silver mines, and maybe go about of an afternoon when his work was done, and pick up two or three pailfuls of shining slugs, and nuggets of gold and silver on the hillside. And by and by he would become very rich, and return home by sea, and be able to talk as calmly about San Francisco and the ocean, and "the isthmus" as if it was nothing of any consequence to have seen those marvels face to face.

What I suffered in contemplating his happiness, pen cannot describe. And so, when he offered me, in cold blood, the sublime position of private secretary under him, it appeared to me that the heavens and the earth passed away, and the firmament was rolled together as a scroll! I had nothing more to desire. My contentment was complete.

At the end of an hour or two I was ready for the journey. Not much packing up was necessary, because we were going in the overland stage from the Missouri frontier to Nevada, and passengers were only allowed a small quantity of baggage apiece. There was no Pacific railroad in those fine times of ten or twelve years ago ?not a single rail of it. I only proposed to stay in Nevada three months ?I had no thought of staying longer than that. I meant to see all I could that was new and strange, and then hurry home to business. I little thought that I would not see the end of that three-month pleasure excursion for six or seven uncommonly long years! I dreamed all night about Indians, deserts, and silver bars, and in due time, next day, we took shipping at the St. Louis wharf on board a steamboat bound up the Missouri River. We were six days going from St. Louis to "St. Jo." ?a trip that was so dull, and sleepy, and eventless that it has left no more impression on my memory than if its duration had been six minutes instead of that many days. No record is left in my mind, now, concerning it, but a confused jumble of savage-looking snags, which we deliberately walked over with

one wheel or the other; and of reefs which we butted and butted, and then retired from and climbed over in some softer place; and of sand-bars which we roosted on occasionally, and rested, and then got out our crutches and sparred over.

In fact, the boat might almost as well have gone to St. Jo. by land, for she was walking most of the time, anyhow?climbing over reefs and clambering over snags patiently and laboriously all day long. The captain said she was a "bully" boat, and all she wanted was more "shear" and a bigger wheel. I thought she wanted a pair of stilts, but I had the deep sagacity not to say so.

The narrator of the attached story experiences a variety of feelings about his brother's appointment to serve as Secretary of Nevada Territory. Among the emotions he describes are these three.

- A. joy, pity, and disgust
- B. concern, anger, and elation
- C. uneasiness, surprise, and hostility
- D. envy, jealousy, and excitement

Correct Answer: D

---

### QUESTION 3

FILL BLANK

Case study

Lights, Candles, Action!

Your friend Abbie is making a movie. She is filming a fancy dinner scene and she has two types of candles on the table. She wants to determine how long the candles will last.

She takes a picture, lights the candles, and then lets them burn for 1 hour. She then takes a second picture. You can assume that each candle burns at its won constant rate.

**First Picture:****Time = 0 hrs****Second Picture:****Time = 1 hr**

Candle Type A initial height = 20 cm

Candle Type B initial height = 10 cm Candle Type A height after burning for 1 hour = 16 cm Candle Type B height after burning for 1 hour = 9 cm

You will use this information to help Abbie think about the candles she might use for her film.

Candles of each type were lit at the same time. Abbie thinks that since Candle Type A burns more quickly than Candle Type B, that it will burn out (have a height of 0cm) first.

Julie thinks that since Candle Type B starts out much shorter than Candle Type A, it will be the candle to burn out first.

Which candle will burn out first? Give a mathematical explanation to convince Abbie and Julie of your solution. Clearly identify the quantities involved.

A.

See explanation below.

Correct Answer: A

Sample response a

Abbie is correct "because" candle A looks taller, but it burns at a rate of 4cm per hour, where candle B looks shorter and burns at a rate of 1cm per second. Since candle A is 20 cm tall, it will burn out in 5 hours where candle B would take 10

hours.

**Score Point 2:**

This student correctly identified that Candle Type A would burn out first and used both initial heights and burn rates to compute and compare the burn out times.

**Sample response b**

Candle A will burn out first because candle A burns 4 cms each hour while Candle B burns 1cm each hour. Candle A will burn out while candle B still has 5cm left.

**Score Point 1:**

Although this student correctly provided the information that 5 cm are left for Candle Type B, he/she did not give any indication as to how that information was derived.

**Sample response c**

Candle A will burn out faster b/c it gets 4 inches shorter every hour when B only get 1 inch shorter.

**Score Point 1:**

The student correctly stated that Candle Type A would burn out first, but only attended to the burn rates and did not mention the initial heights.

**Sample response d**

I think candle b will burn out faster because its shorter and fatter candle a is tall in skinny therefore it will take longer to burn out.

**Score point 0:**

This student only attended to one quantity (height of candle) and concluded that Candle Type B would burn out first, which is incorrect.

---

**QUESTION 4**

Aimee plans to open a lemonade stand. She wants to determine whether to sell an 8 ounce or 10 ounce cup of lemonade. Each 8-ounce cup costs 2 cents and 10 ounce cups are 3 cents each. The lemons to make a half-gallon of lemonade cost 5 dollars and the sugar for the half-gallon costs 85 cents. She already has all the materials needed to make the stand and she can use the location at no cost. Aimee notices that about 150 people pass by the location of her stand each day and thinks that 20 percent of these people will buy a cup of lemonade. You have made the 2 accompanying graphs to help Aimee make business decisions.

Read the attached passage and consult the attached graph. Suppose Aimee increases her profit per cup to 30 cents at the new location. How many fewer sales would be needed to break even at this new price than if she kept the profit per cup at 25 cents?

- A. 3
- B. 17
- C. 4
- D. 16

Correct Answer: A

---

### QUESTION 5

These six sentences could form a paragraph. What is the best order to put them in to create an organized, cohesive paragraph?

1.

Western culture has only recently "accepted" tattoos.

2.

Before the 1970s, tattoos were generally reserved for soldiers or sailors, but their popularity has grown over the past few years.

3.

Tattoos are a form of body modification and self-expressive "art."

4.

Now it is common to see tattoos of all shapes and sizes on people from all walks of life.

5.

Many cultures have used tattoos as a rite of passage or to indicate social rank or status for hundreds of years.

6.

Each has its own significance and meaning to the individual person.

A. sentence 3, sentence 5, sentence 1, sentence 2, sentence 4, sentence 6

B. sentence 5, sentence 1, sentence 2, sentence 6, sentence 4, sentence 3

C. sentence 1, sentence 3, sentence 5, sentence 4, sentence 6, sentence 2

D. sentence 4, sentence 6, sentence 5, sentence 1, sentence 3, sentence 2

Correct Answer: A
