## QUESTION 1

### DRAG DROP

Your company has an Azure Active Directory (Azure AD) tenant named contoso.com.

The company is developing a web service named App1.

You need to ensure that App1 can use Microsoft Graph to read directory data in contoso.com.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Create an app registration	
Add a group claim	
Add app permissions	
Grant admin consent	
Add delegated permissions	

Correct Answer:

<input type="text"/>	Create an app registration
Add a group claim	Add app permissions
<input type="text"/>	Grant admin consent
<input type="text"/>	
Add delegated permissions	

## QUESTION 2

You use Azure Monitor to analyze Azure Active Directory (Azure AD) activity logs.

You receive more than 100 email alerts each day for tailed Azure AD user sign-in attempts.

You need to ensure that a new security administrator receives the alerts instead of you.

Solution: From Azure monitor, you create a data collection rule.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

## QUESTION 3

### HOTSPOT

Your company has an Azure Active Directory (Azure AD) tenant named contoso.com. The company has a business partner named Fabrikam, Inc.

Fabrikam uses Azure AD and has two verified domain names of fabrikam.com and litwareinc.com. Both domain names are used for Fabrikam email addresses.

You plan to create an access package named package1 that will be accessible only to the users at Fabrikam.

You create a connected organization for Fabrikam.

You need to ensure that the package1 will be accessible only to users who have fabrikam.com email addresses.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

To allow access for users who have fabrikam.com email addresses, configure:

<input type="checkbox"/>	An access package assignment in Identity Governance
<input type="checkbox"/>	An access package policy in Identity Governance
<input type="checkbox"/>	A conditional access policy in Azure AD
<input type="checkbox"/>	The External collaboration settings in Azure AD

To block access for users who have litwareinc.com email addresses, configure:

<input type="checkbox"/>	An access package assignment in Identity Governance
<input type="checkbox"/>	An access package policy in Identity Governance
<input type="checkbox"/>	A conditional access policy in Azure AD
<input type="checkbox"/>	The External collaboration settings in Azure AD

Correct Answer:

To allow access for users who have fabrikam.com email addresses, configure:

<input type="checkbox"/>	An access package assignment in Identity Governance
<input checked="" type="checkbox"/>	An access package policy in Identity Governance
<input type="checkbox"/>	A conditional access policy in Azure AD
<input type="checkbox"/>	The External collaboration settings in Azure AD

To block access for users who have litwareinc.com email addresses, configure:

<input type="checkbox"/>	An access package assignment in Identity Governance
<input type="checkbox"/>	An access package policy in Identity Governance
<input type="checkbox"/>	A conditional access policy in Azure AD
<input checked="" type="checkbox"/>	The External collaboration settings in Azure AD

#### QUESTION 4

You need to configure the MFA settings for users who connect from the Boston office. The solution must meet the authentication requirements and the access requirements. What should you include in the configuration?

A. named locations that have a private IP address range

- B. named locations that have a public IP address range
- C. trusted IPs that have a public IP address range
- D. trusted IPs that have a private IP address range

Correct Answer: C

Location offer your country set, IP ranges MFA trusted IP and corporate network VPN gateway IP address: This is the public IP address of the VPN device for your on-premises network. The VPN device requires an IPv4 public IP address.

Specify a valid public IP address for the VPN device to which you want to connect. It must be reachable by Azure

Client Address space: List the IP address ranges that you want routed to the local onpremises network through this gateway. You can add multiple address space ranges. Make sure that the ranges you specify here do not overlap with ranges

of other networks your virtual network connects to, or with the address ranges of the virtual network itself.

## QUESTION 5

### HOTSPOT

You have an Azure Active Directory (Azure AD) tenant that contains three users named User1, User1, and User3,

You create a group named Group1. You add User2 and User3 to Group1.

You configure a role in Azure AD Privileged identity Management (PIM) as shown in the application administrator exhibit. (Click the application Administrator tab.)

Role setting details - Application Administrator	
Privileged Identity Management   Azure AD roles	
 Edit	
<b>Activation</b>	
Setting	State
Activation maximum duration (hours)	5 hour(s)
Require justification on activation	Yes
Require ticket information on activation	No
Require approval to activate	Yes
Approvers	0 Member(s), 1 Group(s)
<b>Assignment</b>	
Setting	State
Allow permanent eligible assignment	No
Expire eligible assignments after	3 month(s)
Allow permanent active assignment	No
Expire active assignments after	1 month(s)
Require Azure Multi-Factor Authentication on activation	No
Require justification on active assignment	Yes

Group1 is configured as the approver for the application administrator role.

You configure User2 to be eligible for the application administrator role.

For User1, you add an assignment to the Application administrator role as shown in the Assignment exhibit. (Click Assignment tab)

**Add assignments**  
Privileged Identity Management | Azure AD roles

Membership Setting

Assignment type ⓘ  
☒ Eligible  
☐ Active

Maximum allowed eligible duration is 3 month(s).

Assignment starts \*  
01/01/2021 12:00:00 AM

Assignment ends \*  
01/31/2021 11:59:00 PM

For each of the following statement, select Yes if the statement is true, Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

	Yes	No
User1 is assigned the Application administrator role Automatically.	<input type="radio"/>	<input type="radio"/>
When User2 requests to be assigned the Application Administrator role, only User3 can approve the request.	<input type="radio"/>	<input type="radio"/>
If a request by User1 to be assigned the Application Administrator role is approved on January 31,2021, at 23:00, User1 can use the role until February 1, 2021, At 04:00.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

	Yes	No
User1 is assigned the Application administrator role Automatically.	<input type="radio"/>	<input checked="" type="radio"/>
When User2 requests to be assigned the Application Administrator role, only User3 can approve the request.	<input checked="" type="radio"/>	<input type="radio"/>
If a request by User1 to be assigned the Application Administrator role is approved on January 31,2021, at 23:00, User1 can use the role until February 1, 2021, At 04:00.	<input checked="" type="radio"/>	<input type="radio"/>
