QUESTION 3

HOTSPOT

You need to implement a solution to encrypt email. The solution must meet the compliance requirements.

What should you create in the Exchange admin center and the Microsoft 36.S compliance center?

To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Exchange admin center
A connector
A DLP policy
A mail flow rule
An organization sharing relationship

Microsoft 365 compliance center
An auto-labeling policy
A DLP policy
A custom sensitive info type
A sensitivity label

Correct Answer:

Exchange admin center

QUESTION 5

You have a Microsoft 365 E5 tenant that contains the policies shown in the following table.

Name	Type	Retention period	Start the retention period based on	At the end of the retention period
Label1	Label	5 years	When items were created	Delete items automatically
Label2	Retention	7 years	When items were created	Delete items automatically
Label3	Retention	10 years	When items were created	Do nothing

A file named File1 has all the policies applied. How long will File1 be retained?

A. File1 will be deleted automatically after seven years.

B. File1 will be deleted automatically after five years.

C. File1 will be retained until the file is deleted manually.

D. File1 will be deleted automatically after 10 years.

Correct Answer: D

Retention always takes precedence over permanent deletion, with the longest retention period taking preference. The delete action from a retention label always takes precedence over the delete action from a retention policy. Reference:
