QUESTION 1

What happens to metrics in the parent tenant when a child tenant is disconnected?

- A. The data is retained in the parent tenant, but not viewable in the app.
- B. Metrics for the tenant are deleted immediately.
- C. Metrics for the tenant are deleted during the next update.
- D. The user may see incomplete data in the app

Correct Answer: A

QUESTION 2

The Admin wants to make Salesforce applications more secure. Which set of security settings should be enabled to achieve this?

- A. Enable ClickJack protection, Lightning Lockdown, Enable User Certificates
- B. Enable ClickJack protection, Health Check, Enable User Certificates
- C. Enable Click Jack protection, Require HTTPS, Enable Cross-Site Scripting (XSS) Protection
- D. Run Health Check, Require HTTPS, Salesforce Shield

Correct Answer: C

QUESTION 3

Identify users who don't need MFA18. If the client wants to record the set up changes users are making to fields for a three years, how would the client achieve this with the standard product?

- A. Buy Shield as this provides features that can do this
- B. The Setup Audit Trail is good for 180 days so, use this together with a process of exporting the changes out of Salesforce to another system
- C. The Setup Audit Trail is good for 5 years so can be used to record this as standard.
- D. Leverage Platform Encryption and enable the archive feature

Correct Answer: B

QUESTION 4

What are two differences between MFA and Device Activation?

- A. Users can opt out of receiving Device Activation challenges, but can't opt out of MFA challenges
- B. MFA challenges users on every login; Device Activation challenges users only when they log in from a new device
- C. Device Activation allows SMS as a verification method while MFA does not
- D. MFA is enabled for all users by default, admins must enable Device Activation

Correct Answer: B

QUESTION 5

What are the actions that an admin can take with Transaction Security?

- A. Freeze User, End Session, require 2FA
- B. Obfuscate, Encrypt, de-identify
- C. Launch Workflow, Require Approval, Send SMS Text
- D. Block, Multi-Factor Authentication, and Notifications

Correct Answer: D
