QUESTION 1

Bob uploads a PDF to his Files Home private library.

Who can view this file?

A. Bob and users above Bob in the role hierarchy

B. Bob and users with View All Data permission

C. Bob and users with Modify All Data permission

D. Only Bob

Correct Answer: D

QUESTION 2

Which two options are available to share a Report or Dashboard folder with other users in the Organization?

Choose 2 answers

A. Profiles

B. Public Groups

C. Roles

D. Teams

Correct Answer: BC

QUESTION 3

Universal Containers (UC) has a mostly Private organization-wide default, as it Is a core principle of UC to respect client data privacy. UC has implemented complex processes for granting access to Opportunity data. A few key members of the sales reporting team need to always be able to see, but not change, Opportunity data for all opportunities.

What should an architect recommend as an approach to meet these requirements?

A. Create a permission set that grants the View All permission for Opportunity.

B. Create and permission set that grants the View All Data permission.

C. Give the View All Data permission to the Sales Reporting profile.

Correct Answer: A

QUESTION 4

3 / 4

Universal Containers has a private sharing model on Accounts. Apex Managed Sharing is required to share certain account records with all users who are assigned to a specific Role in the Role Hierarchy. What should be the recommended way for the Architect to implement this?

A. Create an AccountShare record associated to a public group containing the Users in the Role.

B. Create an AccountShare record associated to each user who is assigned to the Role.

C. Create an AccountShare record associated to the required Role.

D. Create an AccountShare record associated to a public group containing the Role.

Correct Answer: A

QUESTION 5

Besides their own team accounts, sales managers at Universal Containers need to have READ access to all accounts of the same segment in other countries. Role hierarchy was implemented accordingly (based on countries), but a sales manager in the US is complaining that he cannot view account records of the same segment in Canada.

What should be done to grant access in a proper way?

A. Create an owner-based sharing rule to grant access to account records that have the same segment to all sales manager roles.

B. Change the role hierarchy and put all of the sales managers in the US and Canada in the same role.

C. Create criteria-based sharing rules to grant access to account records that have the same segment to all sales manager roles.

D. Create a public group and include all accounts of the same segment and grant access through a permission set.

Correct Answer: A

A. Owner-Based Sharing RulesAn owner-based sharing rule opens access to records owned by certain users. For example, acompany\'s sales managers need to see opportunities owned by sales managers in a differentregion. The U.S. sales manager could give the APAC sales manager access to the opportunitiesowned by the U.S. team using owner-based sharing.
