QUESTION 1

In which three formats can you export a worksheet from the Worksheet menu? Choose three

- A. .png
- B. .html
- C. .xlsx
- D. .txt
- E. .pptx
- F. .csv

Correct Answer: BDF

QUESTION 2

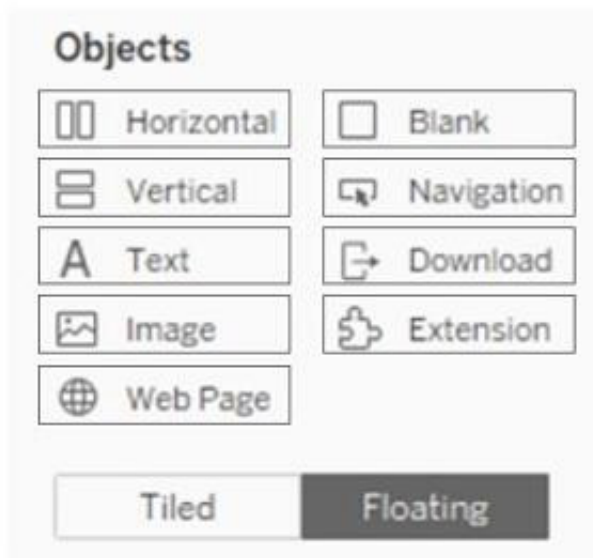

HOTSPOT

You have a blank dashboard.

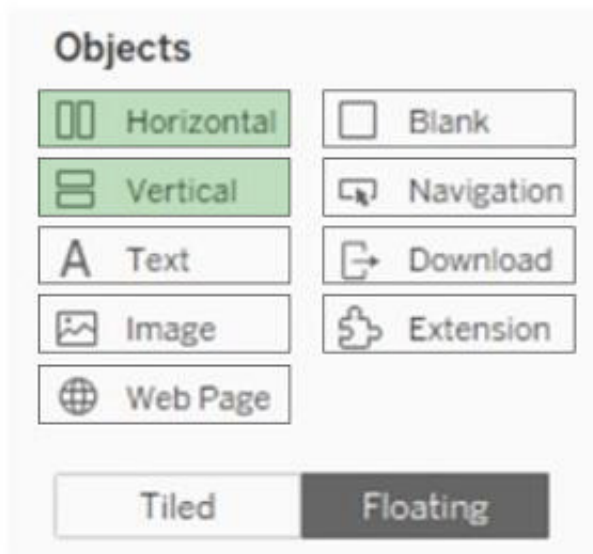

You want to add two sheets to the dashboard. The sheets must support the Show/Hide button.

To which two objects can you add the sheets? (Click the two appropriate Options in the Answer Area.)

Hot Area:

Correct Answer:

To add two sheets to the dashboard that support the Show/Hide button, you can add them to either a horizontal or a vertical container. A container is an object that can hold one or more sheets or other objects and allow you to arrange them in a layout. A Show/Hide button is a feature that lets you hide or show a container and its contents on the dashboard. You can add a Show/Hide button to any container, whether it is tiled or floating, by using the drop-down menu of the container and selecting "Add Show/Hide Button." You can also customize the appearance and behavior of the button. To add a horizontal or a vertical container to the dashboard, you can drag them from the Objects pane to the dashboard. A horizontal container will arrange the sheets or objects horizontally, while a vertical container will arrange them vertically. You can then drag the sheets you want to add from the Sheets pane to the container. You can resize and reorder the sheets or objects within the container by using the handles and arrows. The other objects in the Answer Area, such as text, image, web page, blank, navigation, download, and extension, do not support the Show/Hide button.

They are either static elements that cannot hold other objects, or dynamic elements that require user interaction or external sources. You can add them to the dashboard as well, but they will not have the same functionality as a container with a Show/Hide button. QUESTION 3

You have a dataset that has four fields named Category, Profit, Sales and Customer Name. You need to create the following visualization.

Hot Area:

Sales:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Profit:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Customer Name:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Category:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Correct Answer:

Sales:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Profit:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Customer Name:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

Category:	Color on the Marks card
	Columns
	Detail on the Marks card
	Rows

QUESTION 4

You have the Mowing two tables that contains data about the books in a library.

Table1

Book Title	Book Author
Great Expectations	Charles Dickens
Harry Potter and the Chamber of Secrets	J. K. Rowling
To Kill a Mockingbird	Harper Lee
Don Quixote	Miguel de Cervantes
...	...

Table2

Book Title	Publication Year
Great Expectations	1860
To Kill a Mockingbird	1960
Don Quixote	1615
Jane Eyre	1847
...	...

Both tables are incomplete so there are books missing from the tables.

You need to combine the tables. The solution must ensure that all the data is retained

Which type of join should you use?

- A. Full outer join
- B. Right join
- C. left join
- D. Inner join

Correct Answer: D

QUESTION 5

You are the owner of an alert.

You receive an email notification that the alert was suspended From where can you resume the suspended alert?

- A. The Data Source page of Tableau Desktop
- B. The Notification area of Tableau Prep
- C. The My Content area of Tableau web pages
- D. The Shared with Me page

Correct Answer: D
