The descriptions in these essays range widely, from the fanciful to the matter-of-fact, from the \_\_\_\_\_ to the fatuous, from the objective to the \_\_\_\_\_.

- A. witty; realistic
- B. meager; descriptive
- C. insightful; impressionistic
- D. inane; commonplace

E. articulate; empirical

Correct Answer: C

One example of the wide range of description in the essays referred to in the given sentence is mentioned as "from the fanciful to the matter-of-fact." Since these are exact opposites. The other two phrases should also represent exact opposites so, the first missing must be the opposite of the word "fatuous" (meaning silly), and the second missing word must be the opposite of the word "objective" (meaning unemotional). Among the given choices, it is the pair "insightful; impressionistic" which are the opposites of "fatuous" and "subjective" respectively. So, "insightful; impressionistic" is the answer.
