QUESTION 1

An administrator installs a new Robotic Library, but is unable to see the library in the Backup Exec console.

Which two steps should the administrator perform to ensure the Robotic Library can be used in Backup Exec? (Select two.)

- A. verify the library is working properly in the Windows Device Manager
- B. enable the Tape Drive Support option in Backup Exec
- C. confirm the library is listed in the Hardware Compatibility List
- D. enable debugging, then look for the library again
- E. install the Library Expansion Option license

Correct Answer: BD

QUESTION 2

An administrator is using the restore wizard to browse Files and folders and sees that the system, volume, and backup set information is available, but it is impossible to browse the individual file and folder content.

Why might the individual file and folder content be unavailable?

- A. The tape is missing from the library.
- B. There are no files that have been backed up from the system.
- C. An incorrect date range is defined in the Show backups from setting.
- D. The server is configured to truncate catalogs.

Correct Answer: B

QUESTION 3

Which benefit is provided by the Instant GRT (Granular Recovery Technology) feature?

- A. detailed catalog information
- B. the ability to perform a search of GRT items from the catalog
- C. faster browsing of GRT data on restores
- D. faster backups

Correct Answer: C

QUESTION 4
