### QUESTION 1

An administrator runs a server backup to the Tape Library and has two backups created for the same server. The first backup contains the drive backup [C, D], and the second backup has the system state selected. When a virtual conversion of the server is attempted, the Convert to virtual option is greyed out.

What could be the reason for the Convert to virtual option being greyed out?

- A. Catalogs operation needs to be performed on the backup sets.
- B. The Convert to virtual option is unsupported on tape backups.
- C. Simplified Disaster Recovery (SDR) is disabled.
- D. The VMware and Hyper-V Agent needs to be installed.

Correct Answer: B

---

### QUESTION 2

What are two requirements for configuring Optimized Duplication between two or more Backup Exec servers? (Select two.)

- A. The Central Admin Server (CAS) and Managed Backup Exec Server (MBES) must be configured.
- B. The NDMP option must be installed.
- C. The OS must be similar on the Backup Exec servers where the Deduplication Folder needs to be shared.
- D. The same Deduplication account must be used on all the Backup Exec servers.
- E. The Deduplication storage on each Backup Exec server must be shared.

Correct Answer: AE

---

### QUESTION 3

How is the Capacity Edition licensed?

- A. 1 License per 1 TB of the size of the backup data in all storage devices
- B. 1 License per 1 TB of available backup Storage
- C. 1 License per 1TB of Front-End (source) data
- D. 1 License per 1TB of the deduplicated data size

Correct Answer: A

---

#### QUESTION 4

Which two conditions avoid requiring a temporary staging location in order to restore individual items from a Granular Recovery Technology (GRT) backup set? (Select two.)

- A. The backup is on a local disk storage.
- B. The backup is on local deduplication storage.
- C. The backup is on tape.
- D. The backup is on a third-party, Open Storage Technology device.
- E. The backup is on a Cloud storage device.

Correct Answer: AB

#### QUESTION 5

Refer to the exhibit.

Ueduplication disk storage 0001	Online	Ueduplication disk storage
Disk storage 0001	Online	Disk storage
Robotic library 0001 STK L700	Online	Robotic library
Tape drive 0001 (No media) IBM ULT3580-TDS	Online	Tape drive
Tape drive 0002 (No media) IBM ULT3580-TDS	Online	Tape drive
Tape drive 0003 (No media) IBM ULT3580-TDS	Online	Tape drive
Tape drive 0004 (No media) IBM ULT3580-TDS	Online	Tape drive
Slots		Robotic library slots

How many Library expansion Option (LEO) licenses are required in order to use all drives in the robotic library shown?

- A. 0
- B. 1
- C. 3
- D. 4

Correct Answer: B
