QUESTION 1

Users who are disabled for Veritas Enterprise Vault 12.3 complain that they see the Enterprise Vault Office Mail App in OWA 2013.

What is the possible reason?

- A. Enterprise Vault Office Mail App was installed using the Enterprise Vault OWA Extensions
- B. Enterprise Vault Office Mail App was deployed at the Organization level in Exchange
- C. Enterprise Vault Office Mail App was installed using PowerShell commands with OWAUser.wsf
- D. Enterprise Vault Office Mail App was installed using EVPM and OfficeMailAppManifest.xml

Correct Answer: B

QUESTION 2

Which classification rule is only possible using the Veritas Information Classifier as the classification method?

- A. a rule for items that contain the words "insider" and "trading" within 50 characters of each other
- B. a rule for items that contain the word "fraud" in the content, but not in the subject
- C. a rule for items that were sent with high importance
- D. a rule for items that contain exactly one BCC recipient

Correct Answer: A

QUESTION 3

A check of the archive reports shows that only half of the mailboxes are being archived successfully during the scheduled archiving run.

How should the administrator ensure that all of the mailboxes are being archived?

- A. create a new system mailbox and assign it to the archiving task
- B. increase the number of concurrent connections in the archiving task properties from five to ten
- C. increase the number of items per pass from 1000 to 2000
- D. increase the archiving schedule window for the mailbox archiving task

Correct Answer: D

QUESTION 4

An administrator needs to create a different Exchange mailbox archiving policy for the VIP group. The administrator has added a new Provisioning Group called "VIPs", added the users to this group, applied the new Exchange mailbox archiving policy to this group and synchronized mailboxes; however, the user continues to use the initial Provisioning Group.

Which steps should the administrator perform to enable the VIP users to use the new Exchange mailbox archiving policy?

- A. Vault Administration Console > "VIPs" Provisioning Group Properties > Archiving Defaults tab > "Automatically enable mailboxes"
- B. Vault Administration Console > Provisioning Groups Properties > use "Move Up" button to move the "VIPs" Provisioning Group above the other Provisioning Group.
- C. disable the VIP users manually > run the archiving task > enable the VIP users manually > run the archiving task
- D. set the SyncInMigrationMode registry key to 1 > Synchronize the users in the archiving task

Correct Answer: D

QUESTION 5

A single user reports that while working offline his Virtual Vault only shows old items. An investigation reveals that Vault Cache synchronization is failing. All other Veritas Enterprise Vault 12.3 operations are working normally in the client. Which troubleshooting option can an administrator use to resolve the issue?

- A. perform a manual Synchronization of the mailbox from the Administration console and restart Outlook
- B. click the Partial Reset option in Enterprise Vault Diagnostics and restart Outlook
- C. deselect the Enterprise Vault Add-in from File > Options > Add-Ins > Manage COM Add- Ins and restart Outlook
- D. ZAP the mailbox using an EVPM script and restart Outlook

Correct Answer: B
